

DogsNZ Agility Standing Orders - Section 13

Unruly or Aggressive Dogs

At any Agility fixture, the DogsNZ Show regulations regarding the exclusion of dogs unfit for exhibition due to disease or savage disposition apply.

An Agility fixture is defined in the regulations as a Championship or Open Event, Agility Ribbon Trial, Interclub or Club Day.

Issues with dogs at training or other club gatherings

Where there is an issue with a dog and its behaviour at other than the above agility fixture, (eg club training), the club hosting the training is responsible for any preventive or disciplinary action. The club is however encouraged to seek guidance from the Agility Committee if they are in any doubt as to possible corrective or preventive measures they may wish to employ.

The DogsNZ Agility Committee has put together a method in which investigation of any incident either on club grounds or at a club organised fixture (excluding Events under the provision of the DogsNZ Show Regulations) is to be done. This forms part of these Standing Orders as Section 11 Where such action is taken, a copy of any written material should be forwarded to the Agility Committee for its records.

Incident Register

The DogsNZ AC Incident Register may be used at any time including for issues arising out of club training where assistance is requested or where it is felt that the event should be recorded at AC level. Access to the Incident Register can be found in the "links" section on the DogsNZ Agility website: <http://www.dogagility.org.nz/>

A screenshot of a website menu titled "Links" in red. The menu items are: "Our Agility Vision", "Read about Agility?", "Find a club near you", "Information about Measuring Dogs", "List of Official Measurers", "Join Our Facebook Fan Page" (with a Facebook icon), "My profile", and "Add an Agility Incident" (highlighted in yellow). To the right of the menu is a logo for "Dogs NEW ZEALAND" with a green paw print above the word "Dogs".
