

AD and ADX Regulation changes – effective February 20th 2010

Alter 11.4.2.2 and 11.4.3.2 to allow trial courses unsuitable due to venue or equipment restraints to be removed from the random draw.

11.4.2 AD Class Courses

11.4.2.1 Approval of Courses

The Agility Committee will approve twelve official AD Courses.

11.4.2.2 Selection of Courses

The officiating judge will choose one course from the approved AD courses at random before the course is set out. In the case of ring or venue restrictions or due to unavailability of equipment, unsuitable courses may be removed prior to a course being chosen.

11.4.2.3 Course Set Up

The officiating judge will ensure the course as set up conforms to the specifications.

11.4.3 ADX Advanced Class Courses

11.4.3.1 Approval of Courses

The Agility Committee will approve twelve official ADX Advanced courses.

11.4.3.2 Selection of Courses

The officiating judge will draw one course from the approved ADX courses at random before the course is set out. In the case of ring or venue restrictions or due to unavailability of equipment, unsuitable courses may be removed prior to a course being chosen.

11.4.3.3 Course Set Up

The officiating judge will ensure the course set up conforms to the specifications.

Dog Measuring Regulation changes – effective 20 February 2010

Alteration to 10.1.4.2 so that two parties are required to assess dog height measurement.

10.1.4.2 Method of Measurement

The dog shall be measured by two people jointly, one of which must be an official measurer appointed by the NZKC Agility Committee. The second person can be either another official measurer, or a Senior Agility Judge, or a member of the NZKC Agility Committee. These two people are to measure the dog together at a time and place to be nominated by the measurers. The official measurer will issue a NZKC Certificate of Measurement, signed by both parties conducting the measurement. This measurement will be done utilising a measuring device approved by the NZKC Agility Committee and following the 'Guidelines for Measuring dogs' as produced by that Committee.
