

SENIOR - Table for calculating Maxi/midi Qualifying Course Time (QCT)

Judge to select a rate of travel suitable for a maxi/midi dog to gain a challenge certificate. Take into consideration course complexity, number of contacts, number of weaves, weather/ground conditions.

Use the selected rate of travel and the course length to determine the maxi/midi QCT. Selected								
Rate of Travel (m/s)								
Course Length	3.25	3.5	3.75		Course Length	3.25	3.5	3.75
141	43	41	38		181	55	52	49
142	43	41	38		182	56	52	49
143	44	41	39		183	56	53	49
144	44	42	39		184	56	53	50
145	44	42	39		185	56	53	50
146	44	42	39		186	57	54	50
147	45	42	40		187	57	54	50
148	45	43	40		188	57	54	51
149	45	43	40		189	58	54	51

SENIOR - Table for determining qualifying, standard and maximum course times

Based on the Maxi/midi (Large) qualifying course time, the QCT for unsplit classes and small dog splits, the overall standard course time (SCT) and the maximum course time (MCT) can be determined.

Large QCT	Unsplit class QCT	Split small QCT	All classes SCT	All classes MCT
37	39	39	44	55
38	40	40	45	57
39	41	41	46	58
