

Agility in Schools Subcommittee

The Agility in Schools Subcommittee aims to promote youth involvement in dog sport by offering dog training as an elective Secondary School Sport option.

Our hope is that we can encourage young people to be responsible and involved dog owners through building participation and enjoyment in dog related sports.

The AIS will support clubs by

1. Assigning a member of AIS or another experienced person to each region where clubs are participating, as a link to the AIS
2. Promoting Agility as a elective sport to Regional Secondary Sports Coordinators
3. Creating partnership links between clubs and Secondary Schools in their area
4. Establishing a suggested One term Introductory lesson plan for clubs to use
5. Providing guidance in regard to Health and Safety and the Vulnerable Children's Act

If your club is interested in forming a partnership with your local Secondary School please contact the AIS sub committee by emailing agilityinschools@dnzac.nz
